Tour Policy

To protect the privacy of our guests using our Spa, we do not offer tours through our Spa facility. Please speak with a Spa Host for details regarding the facilities.

Arrivals

Use of the Spa facility is included with all Spa treatments on the day of your scheduled service (massages, facials, body treatments), and you are welcome to enjoy the facility throughout the day.

We request that you arrive at least 30 minutes prior to your scheduled Spa appointment to allow time to receive your locker, change into the robe and sandals provided as well as enjoy the steam, sauna, whirlpool and shower.

A shower just before your service is calming and beneficial as it washes away any unwanted minerals or chemicals on the body.

To prevent irritation, shaving is not recommended before a Body Treatment or Men's Facial. If you choose to shave, please do so at least four (4) hours prior to your service.

Late arrivals will reduce treatment time and, as a courtesy to the next guest, your treatment will end on time, regardless of when your service began.

What to Wear During a Treatment

O Spa is a clothing optional environment. It is recommended during a Body Treatment or Massage that those treatments are enjoyed without clothing although undergarments may be worn if preferred. Professional draping is performed throughout the duration of the service for privacy. We will provide robes and slippers for your convenience.

We recommend that you do not wear jewelry during your Spa service; however we do provide safety deposit boxes so please ask an attendant for assistance.

General Policies

Resort Fee & Facility Fees

The hotel resort fee includes admission for two (2) guests per room, per day to utilize the O Spa fitness facility only. Admission to the Spa facilities is available for an additional \$17 per person, per day only for hotel guests paying the resort fee.

RUSSIAN BANYA

In Russia, the healing effects of banya or sweat bathing have been recognized for centuries. As a well known and time honored therapeutic technique banya is a fundamental part of the Russian culture.

In simple terms, Russian banya is a wetter, more humid sauna experience than the dry sauna that is familiar to most. Banya entails repeated exposure to moist heat, massage with aromatic oils, and a brisk brushing of the body with a leaf whisk to stimulate circulation and increase the heating effect, followed by a cool-down. As heat speeds up the chemical processes in the body, sweating becomes one of the simplest and most comfortable ways to rid the body of accumulated toxins.

After lying down on a comfortable bench and allowing the body to relax, the Spa therapist pours water along with a few drops of an essential oil over hot rocks to raise the heat in the room slowly and create a soothing, hot steam.

As perspiration increases, a warmed oak leaf is whisked in the air to increase the heat in the room. When perspiration is sufficient, the therapist uses the whisk to stroke, brush, and tap the body. This tapping brings the circulation up, enabling the heat to penetrate more deeply to relax muscle tissue and tendons. The tapping also massages the skin and removes dead skin cells. The whisk leaves release phytoncides – a biologically active substance that kills or depresses the growth and development of pathogens. Essential oils released by venik improve metabolism and prevent premature aging of the skin. Truly an experience to indulge the senses.
